

BHAVAN SESHU POKALA

Senior Project Engineer | Enterprise Systems & Data Center Operations
Palakol, Andhra Pradesh, India | pbhavanseshu@gmail.com | 8331896857 | [LinkedIn](#)

PROFILE

- **Senior Project Engineer with 5+ years of experience** managing enterprise applications and data center operations across mission-critical environments.
- **Deep expertise in BMC Control-M, HPE Tandem NonStop, IBM AS/400 (IBM-i), and Mainframe systems**, plus backup and ITSM platforms, spanning large-scale monitoring, batch scheduling, migrations, incident management, privileged operations, and cross-platform administration with hands-on exposure to integrations and API technologies.
- Enthusiastic about innovation and proof-of-concept initiatives, continuously exploring new tools and technologies to strengthen integration practices.

TECHNICAL SKILLS

- **Enterprise Scheduling & Mainframe Technologies:**
 - **BMC Control-M Workload Automation** (Production & QA) — scheduling, calendars, reports, dependencies, monitoring, forecasting, RCA, performance tuning, automation scripting
 - **IBM MF Emulator** (3270/3201 green-screen) — ISPF/PDF, SDSF, JCL, COBOL, Datacom, CICS, SQL batch programs, control members, copybooks
 - **HPE Tandem NonStop** — multi-instance environments (KFS1, KFS3, KFSQ, KFSZ), region-based transaction processing & backend integrations using TACL
 - **IBM AS/400 (IBM-i)** — Reflection Workspace; supported ERISHA, EARTH, PLUTO, ERIS, AS4PROD, AS4TST
- **Monitoring, Storage & Infrastructure:** MOMI PC Client, Robot Network 11, SiteScan, EMC Unisphere, Parkplace Technologies
- **Access & Connectivity:** PuTTY (SSH) — access provisioning, DB connectivity support, Snowflake & Clama reboots, PAM-controlled migrations
- **Backup & Recovery:** HP Data Protector
- **ITSM/Ticketing:** EasyVista, HP Service Manager | **Telephony:** Avaya Communication Manager
- **Database:** MySQL (query execution, basic administration, connectivity support)
- **Languages:** C, C++, Java, Python, VBScripting | **Other:** MS Office (Word, Excel, PowerPoint)

EXPERIENCE

Senior Project Engineer

Dec 2025 – Present

Wipro | Project: USFoods | Domain: Enterprise IT – Supply Chain (Food Industry)

- Lead operational support engineer for HPE Tandem NonStop, IBM AS/400, and mainframe-integrated applications across production and test environments.
- Drive incident, problem, and change management activities across critical systems.
- Manage, monitor, maintain, migrate, schedule, and troubleshoot system applications and servers in data center environments.
- Design and manage complex batch workflows using Control-M, Tandem, and IBM job schedulers.
- Perform root cause analysis (RCA) for recurring issues and deliver preventive fixes in collaboration with cross-functional teams.
- Ensure data security, access control, and compliance across enterprise systems.

Administrator

Jan 2024 – Nov 2025

Wipro | Project: USFoods

- Administered enterprise scheduling and batch operations using BMC Control-M, Tandem NonStop instances, AS/400, and IBM Mainframe applications/servers in a data center environment.
- Performed system maintenance including operations sheets, staging, TechWindow, IBM Mainframe IPLs, program moves, report generation, workload automation, calendar creation/updates, migrations, and backups.
- Diagnosed and resolved software issues and assisted with hardware troubleshooting.
- Ensured secure access, system reliability, and data confidentiality across all environments.
- Monitored infrastructure and application health using SiteScan, Robot Network 11, MOMI PC Client, and EMC Unisphere; coordinated with Parkplace Technologies for hardware maintenance.
- Created SOPs and mentored junior engineers.

System Engineer

Oct 2021 – Jan 2024

Wipro | Project: USFoods

- Provided 24x7 monitoring and operational support for enterprise applications, ensuring optimal performance and uptime.
- Managed batch scheduling, backups, and updates to maintain system integrity.
- Provided technical guidance for software and hardware issues.
- Ensured system security, access control, and stable operations across teams.

Scholar Trainee

Sep 2021 – Oct 2021

Wipro | PRP-PJP (Project Readiness & Pre-Joining Program)

- Gained hands-on, real-time experience in Windows Server administration, network configuration, and software/hardware troubleshooting.

ACHIEVEMENTS

- Improved batch success rate from 96% to 99.9% by analyzing failures, correcting dependencies, and optimizing calendars.
- Earned repeated client recognition for exceptional production support, consistent performance, and issue ownership.
- Trusted to handle high-priority tasks independently during critical business windows.
- Demonstrated 100% attendance, ensuring uninterrupted production operations.

EDUCATION

- **M.Tech, Computing Systems & Infrastructure** — Birla Institute of Technology & Science, Pilani (WILP) | 2022–2025 | CGPA: 7.46/10, Dissertation: Excellent
- **B.Sc, Mathematics, Physics, Computer Science** — Sri Aditya Degree College, Adikavi Nannaya University | 2018–2021 | CGPA: 8.12/10
- **Intermediate (12th)** — B.R.R & G.K.R Chambers Degree College | 2018 | 82.6%
- **SSC (10th)** — Bhashyam High School | 2016 | CGPA: 8.5/10

CERTIFICATIONS

- Google Cloud GenAI (L0–L3) | AWS Cloud Admin L1 | Microsoft Azure Fundamentals (AZ-900)

ACADEMIC PROJECT

- **Automated Privacy Protection in Digital Images using AI and Cloud Computing** — Built a serverless pipeline (AWS Lambda, Rekognition, Textract, S3, DynamoDB, API Gateway) for face detection/blurring and regex+AI-based sensitive data redaction (Aadhaar, PAN, CVV, QR codes) across multiple file types, with auto-deletion after 24 hours.
